

HyunMok Park

Machine Learning Engineer

CONTACT

Seoul / South Korea

010 5286 3672

mokssi2@naver.com

<https://github.com/Hyunmok-Park>

LANGUAGES

Korean

English

SKILLS

C, C++, Python, Pytorch, Git,
Docker, Ubuntu, Linux

KNOWLEDGE

Machine Learning
Deep Learning
Graph Neural Network
Probabilistic inference

EDUCATION

Bachelor's Degree

Hanyang University

2014/03 - 2020/02

- Majored in Electronic Engineering.
- Cumulative GPA 3.73 / 4.5

Master's Degree

Hanyang University

2021/03 - 2022/02

- Majored in Electronic Engineering.
- Specialized in Machine Learning Engineering.
- Current GPA 4.21 / 4.5

PROJECT EXPERIENCES

Wi-Fi positioning using Machine Learning

Hanyang University

2019/03 - 2019/11

- Indoor positioning application using Wi-Fi.
- Developed using **Android**, **Python**.

OOD generalization of Graph neural network

Hanyang University

2020/03 - 2021/11

- Probabilistic inference using deep neural network.
- Developed using **C**, **R**, **Python**.
- Understanding of generalization pattern of graph neural network.

OOD generalization of Graph neural network

Hanyang University

2020/03 - 2021/11

EXTRACURRICULAR ACTIVITIES
